MD918

DIGITAL PAPER MOISTURE METER

- CPU based, inductive type precise measuring using high frequency dielectric field, no damage to paper
- Auto ambient **temperature compensation** brings high accuracy and stability
- Maximum paper moisture alarm
- 10-materials density selectable
- Easy to operate and carry

Technical specifications
Measuring range: 4~80%
Resolution: ±0.5%
Operating humidity: 20%~95% RH
Battery: 1.5Vx3, AAA size
Dimensions: 132x67x26mm
Weight: 116g approx.

Sinometer
